

Use the Query Tool – Page 1

The BIG Query tool allows you to run queries against the entire BIG Member Trial Balance database. You can query by primary or secondary accounts and customize by peer groups and fiscal years. Your results will download into an excel file for further manipulation and analyses.

Step 1

Building your query: 1. Set Query Parameters 2. Select Primary Accounts 3. Select Secondary Accounts 4. Get Query Results

Back to start

Set Query Parameters **set fiscal year**

Fiscal Year: 2020 **1**

PEER GROUP

2 SHSC's Regular Peers

Select a peer group to begin your query.

Custom Peer Group: BIG Peer Group

- All
- CVICU peers
- London
- SHSC's Regular Peers**
- Teaching 1
- Teaching 1 (exclude TOH)
- Teaching 1 TM
- Teaching and Large Community
- Teaching and Large Community 2
- Teaching and Large Community copy 1

Manage Peer Groups
To begin your query, select/create a Custom Peer Group (paid Members only) or select one from the BIG Peer Group tab listing.

Step 2. Select Primary Accounts **Next**
